Finding Articles - Testing Your Knowledge

Use the database *Academic Search Premier* to complete the following questions.

1. Conduct a search for "**cloning ethics.**"
How many total citations were retrieved?
2. Conduct a search for "**cloning and ethics.**"
How many total citations were retrieved?
3. Narrow the search in #2 by selecting only *Scholarly (Peer Reviewed) Journals*.
How many scholarly citations were retrieved?
4. Explain why the results are different in each search.
