

**STATE OF TENNESSEE
PROJECT SUPPORT DOCUMENTATION**

FA 0749/0627

ATTACH to DB70/SBC-1

DEPARTMENT : The University of Tennessee
PROJECT TITLE : **University Libraries Hodges and Pendergrass Libraries**
INSTITUTION : The University of Tennessee, Knoxville

A. PROGRAM OBJECTIVES:

(Description of project. Does not have to be every nut and bolt but inclusive of all major items that need to be accomplished)

Building renovation and upgrade needs for Hodges and Pendergrass Libraries:

Painting; even though roof and window leaks have been repaired, inside walls were not patched or repaired.

Total estimated cost: \$50,000

B. EVIDENCE OF NEED:

(Justification for project, not necessarily economical justification)

Number of in-person visits to both libraries exceeded 2 million in 07-08. Presence of food and drink in Hodges requires on-going attention to walls. High ceilings require scaffolding to paint; as a result, these areas have not been addressed since building opened in 1987.

C. HISTORICAL PROFILE:

(Can be historical for building, program project is for, etc.)

Hodges Library was built in 1987; since that time, only a portion of a single floor has been totally renovated. Minimal painting has occurred on other floors. Pendergrass was built in 1974; other than construction of additional classrooms, there has been no major renovation since that time.

D. RELATED REQUIREMENTS:

None. *(Most likely none, but if there is a definite relationship to another project that must be done before this one can be done, or is waiting on this one to be done, explain here)*

E. SUMMARY RESULTS AND DATE OF PHYSICAL FACILITIES SURVEY:

Not applicable. *(This will not apply to any of these projects)*
