---

**DEPARTMENT** : The University of Tennessee  
**PROJECT TITLE** : **University Libraries Hodges Library Windows**  
**INSTITUTION** : The University of Tennessee, Knoxville

---

**A. PROGRAM OBJECTIVES:**

*(Description of project. Does not have to be every nut and bolt but inclusive of all major items that need to be accomplished)*

**Building renovation and upgrade needs for Hodges Library:**

**Window washing, inside and outside of Hodges Library. Windows have not been washed since building opened; evidence of mold, spider webs, dirt, grit from masonry work.  
Total estimated cost: \$20,000.**

**B. EVIDENCE OF NEED:**

*(Justification for project, not necessarily economical justification)*

**Number of in-person visits to the University libraries exceeded 2 million in 07-08. High ceilings and multiple large windows require scaffolding to clean and, as a result, these areas have not been addressed since building opened in 1987.**

**C. HISTORICAL PROFILE:**

*(Can be historical for building, program project is for, etc.)*

**Hodges Library was built in 1987; since that time, only a portion of a single floor has been totally renovated. Other than this, there has been no major renovation since that time.**

**D. RELATED REQUIREMENTS:**

None. *(Most likely none, but if there is a definite relationship to another project that must be done before this one can be done, or is waiting on this one to be done, explain here)*

**E. SUMMARY RESULTS AND DATE OF PHYSICAL FACILITIES SURVEY:**

Not applicable. *(This will not apply to any of these projects)*
