

Dear County Clerk:

The International City/County Management Association (ICMA) has conducted a *Form of Government Survey* for almost thirty years. This survey provides the association the most comprehensive information available on form of government, election systems, provisions for referendum/recall, and term limits. In addition, information on characteristics of the local governing body is covered in this survey. A summary of the survey results will be available on the Internet after the data have been tabulated.

Please contribute to this significant body of knowledge by completing the survey and returning it as soon as possible. Your participation is greatly appreciated.

Definitions:

The term *commission*, as used throughout the survey, refers to an elected body whose members are called commissioners, supervisors, council members, board members, or the like.

The term *presiding officer*, as used throughout the survey, refers to the elected head of the county government called the executive, chairman, judge, or the like.

1. Please indicate which of the following best describes your current legal form of government, as defined by your charter, ordinance, or by state law. (Please read all definitions first and check only one.)

- a. Each elected commissioner or board member serves as director of one or more functional departments (e.g. Public Works Director or Director of Health and Human Services) in addition to his/her policymaking role. The presiding officer may be chosen from the board or elected directly (e.g., county judge). This is popularly known as the *commission* form of government.
- b. An elected board sets policy, adopts legislation, and approves the budget. The commission appoints an administrator to conduct the day-to-day county business, to prepare the budget, to oversee department heads, and to recommend policy to the board. This is popularly known as the *council-administrator* (manager) form.
- c. The elected board is responsible for making policy. The executive, elected at -large, implements county board policies, prepares the budget, and acts as county spokesperson. The executive often has veto power, which can be overridden. This form fully separates the legislative and executive powers and is popularly known as the *council-elected executive* form.
