Sharing Our Story

Communication is not a one-time activity but rather an initiative that requires ongoing dedication. It encompasses listening as well as telling. Effective communication demands that we weave our users' range of experiences into what each of us does and how we convey it. In this way, we do more than share experiences. We create a shared experience.

Goals

- Use two-way communication and assessment to create an extraordinary user experience
- Cultivate private support of the Libraries
- Increase awareness of library services and resources
- Create and promote consistent best practices for external communication
- Publicize the Libraries' accomplishments throughout campus—and beyond
